

FULL SPECTRUM ENZYMES

Enzymology Research Center Catalysts, Inc. (ERCC) is a leading supplier of individual and custom blended enzymes from microbial, plant and animal sources.

ERCC ENZYMES ARE:

- Clinically tested
- Non-GMO
- GRAS
- Kosher
- Beneficial in a wide variety of food and dietary supplement applications

AstraZyme Lipid

ASTRAZYME® is a unique and proprietary combination of enzymes, minerals and herbs. It has been clinically proven to break down **fats** as well as significantly enhance both fatty acid and linoleic acid absorption quantities and rates.

ASTRAZYME® LIPID BENEFITS INCLUDE:

- lower daily intake of fat because of higher absorption rates
- increased absorption of vitamin A, E, D, & K
- reduced stress on internal organs because fats are being processed more efficiently and effectively
- supporting healthy weight management
- higher energy levels

AstraZyme® Lipid is:
Non-dairy, non-soy, non-GMO, gluten free, allergen free and vegan

AstraZyme Lipid

CHART 1
Total quantity of fatty acids absorbed in CACO-2 Cells within 20 minutes
INCREASED BY >37%

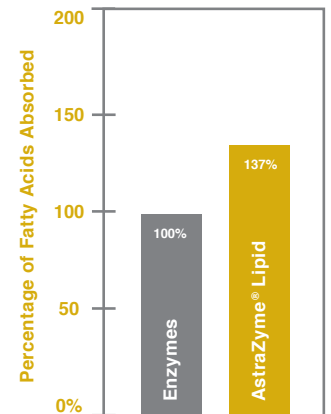

CHART 2
Total quantity of linoleic acids absorbed in CACO-2 Cells within 20 minutes
INCREASED BY >55%

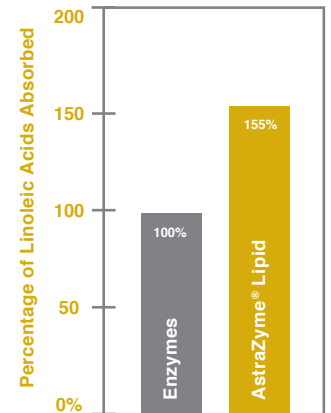

CHART 3
The rate of absorption of fatty acids **INCREASED BY >120%** in CACO-2 Cells in 5 minutes

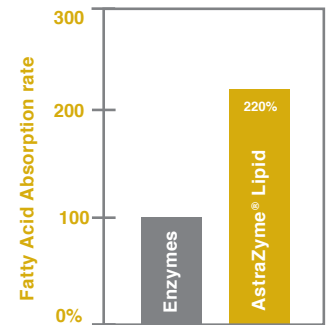

CHART 4
The rate of absorption of linoleic acids **INCREASED BY >109%** in CACO-2 Cells in 5 minutes
